

## Objectives

The annual Zsigmondy Colloquium of the German Colloidal Society is primarily aimed at young researchers in the field of colloids, polymers, surface and interface science. PhD students and postdocs are particularly invited to present their research as oral presentations or poster contributions. Our goal is to promote communication between young scientists, senior colleagues, and participants from industry and small enterprises.

## Topics

- Wet-chemical & in-silico synthesis of (soft) colloids
- Colloidal phase behaviour & non-equilibrium states
- Particle-particle interactions
- Rheological properties
- Colloid-based materials
- All topics of interface, polymer & colloid science

16<sup>th</sup>  
ZSIGMONDY COLLOQUIUM  
March 9-11 2020

Soft Colloids

## Invited speakers

**Prof. Dr. Ilja Voets**

Eindhoven University of Technology  
The Netherlands

**Prof. Dr. Peter Schurtenberger**

Lund University, Sweden

## Organizers

**Prof. Dr. Matthias Karg**

Colloids and nanooptics, HHU Düsseldorf

**Prof. Dr. Stefan Egelhaaf**

Physics of soft matter, HHU Düsseldorf

## Scientific Committee

**Prof. Dr. Laura Hartmann** (HHU)

**Jun.-Prof. Stephan Schmidt** (HHU)

**Prof. Dr. Jan K.G. Dhont** (Forschungszentrum Jülich/HHU)

**Prof. Dr. Peter Lang** (Forschungszentrum Jülich/HHU)

## Venue

The 16<sup>th</sup> Zsigmondy Colloquium will be held at the Heinrich-Heine-University (HHU) Düsseldorf. The HHU is a campus university located south of the city center reachable within 15 minutes from main station.
